# Why become a sponsor of the 1st Rencontre Women Do Wine?

## To support the women in the wine industry

Sommelières, wine merchants, oenologists, winemakers, wine cellar owners, wine growers, bloggers, agricultural workers, journalists, domain owners, there are many of us, in all the professions of wine, but under-represented in the media and in professional associations.

## Because we need to meet

Often isolated in our fields, in our regions, in our trades, we need to meet. To help each other, to give each other strength and advice, to empower each other, to multiply our energies and above all, not to feel alone any more.

## To showcase your business

First with our members, but also with our many subscribers and friends and our wide network of professionals. But also because in 2019, supporting women's movements means participating in the collective drive towards equality.

## To improve your visibility

Because within Women Do Wine, there are several hundred professionals, many of them communicating, and all our actions resonate loud and clear in the European wine world and beyond.

## HOW TO?
